Hardworking

Intent

At the Preston and Wingham Primary School Federation, we place importance on a curriculum that develops the whole child. A curriculum that is for all. Through our core values, we foster an environment where the emotional, physical, academic, social, moral, spiritual and cultural development of each child is considered. We want our children to be RICH in the sense that we want them to have rich experiences during their journey through school. We want our curriculum to be RICH we believe that providing RICH quality of education leads to RICH citizens in terms of both skills, values and future aspirations in the wider world. Our curriculum is mapped to include coverage of the national curriculum and provides a range of experiences for our pupils through enrichment. Our curriculum is designed to challenge, engage and motivate with the ultimate goal that our learners progress both academically and socially and become successful, confident individuals, who make a positive contribution to the community and society- both now and in the future.

Implementation

National Curriculum

Planning is creative and well thought out meeting the requirements of the National Curriculum. RETAINS lesson structure supports children to know more and remember more and helps lessons to build upon each other. Pupils contribute to content (likes and dislikes) through pupil voice.

Enquiry Based Learning

Cross-curricular units of work all start with a question. Encourage children to be curious and ask questions. Develops discussions skills and opinions. Teamwork and confidence.

Enrichment & Outdoor Learning

Children tell us they love this and that it helps them to know more and remember more. Carefully planned visits and activities, community links, skill workshops, life experiences enhance the learning of our pupils and develop their understanding how they can contribute to the community and society.

Behaviour and Attitudes

Children are encouraged to display good behaviours for learning and take responsibility for their learning and actions within the environment through our values underpinning all aspects of school life. Pupils involved in setting school rules, rights and responsibilities. Children are engaged in learning because their needs are being met and our expectations are high. Children use critique to reflect and evaluate their own and each other's work. We are Thrive schools and through this approach children understand are supported with emotional wellbeing.

FLOURISH

Our children demonstrate their skills and knowledge through an assessment process that enables all learners demonstrate their learning in a way they choose. It develops confidence, creativity and independence.

Impact

Pupils leave the Preston and Wingham Primary Schools Federation with the necessary academic skills and knowledge that will enable them to continue to develop as they move to the next stage of education. They are confident conversationalists that are resilient, creative thinkers and problem solvers. They are curious and ask questions to further their knowledge. They have a great understanding of diversity and have the empathy and emotional intelligence to accept and be part of today's culture. We aim for all our children to leave respectful, inclusive, creative and hardworking with a thirst for life and all it has to offer.

Learning together, we grow kind hearts
and healthy minds.
